

International private wealth

We provide a full international private wealth service to a range of multi-jurisdictional clients, recognising that your needs are often complex and require a wider, holistic approach and an understanding of technical and practical issues across multiple jurisdictions.

We work alongside accountants, fiduciaries, wealth managers and financial advisers to deliver the very best technical support and advice for clients across international borders and traversing different tax and succession regimes.

What services do we offer?

International tax, trusts, estates and wills

International family wealth structuring and succession planning

International tax reporting, compliance, tax disputes and disclosure

International tax residency and domicile planning

Family law

Property conveyancing and structuring for resident and non-resident clients to the UK

Business and investor immigration

Associated business and corporate advice, including corporate tax

Charitable trusts, Family Investment Companies and foundations
